

VLAZE

VITREOUS ENAMEL PREMIUM HEARTH

INSTALLATION

1. Set the hearth plate on a bed of structural silicone or a flexible floor tile adhesive and level correctly. Allow to dry completely.
2. Lift the appliance into position taking care not to drag across the enamelled surface.

CLEANING AND HANDLING

Enamel surfaces must be treated as glass, with care and attention.

To clean enamel surfaces simply wipe over with a dry cloth or soft brush. Abrasive pads and scouring cleaners must not be used as these will damage the finish. Care should be taken not to knock the enamel with hard objects as it will chip.
