

HANDLING GUIDELINES FOR VLAZE PRODUCTS

Vitreous enamel is basically glass fused with steel - the following guidelines need to be followed in order to ensure that the panels are not damaged.

HANDLE AS YOU WOULD A PANE OF GLASS

DO NOT allow the panels to drop on a hard surface

DO NOT rest the panels/edges on a hard surface

DO NOT rest the panels on their corners

DO NOT BEND

DO NOT allow the flatter panels to flex

ENSURE that the panels are supported fully at all times and especially when carrying.

DO NOT strike panels with a hard object

DO NOT clean with abrasive materials

HANDLE AS GLASS
